## Elective surgery waiting list episode—overdue patient status

### Identifying and definitional attributes

Metadata item type: Data Element Concept

METEOR identifier: 269482

Registration status: Health, Superseded 25/01/2018

Tasmanian Health, Superseded 16/06/2020

**Definition:** An overdue patient is one whose wait has exceeded the time that has been

determined as clinically desirable in relation to the urgency category to which they

have been assigned.

**Context:** Elective surgery:

The numbers and proportions of overdue patients represent a measure of the

hospital's performance in the provision of elective hospital care.
