Client—case management plan indicator, code N

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Case management plan indicator
METEOR identifier:	270379
Registration status:	Community Services (retired) , Superseded 29/04/2006
Definition:	Whether or not a current (at the time of recording) case management plan has been developed for the client, implemented and/or agreed to by the client, as represented by a code.
Data Element Concept:	Client—case management plan indicator
Value Domain:	Case management plan indicator code N

Value domain attributes

Representational attributes

Representation class:	Code	
Data type:	Number	
Format:	N	
Maximum character length:	1	
Permissible values:	Value	Meaning
	0	Not applicable
	1	Plan developed
	2	Plan agreed to by client or advocate
	3	Plan implemented
Supplementary values:	9	Not stated/inadequately described

Collection and usage attributes

Guide for use:	CODE 0 Not applicable Case management plans may not be appropriate for all clients, for example, where a client receives supported accommodation for a 24-hour period or less. CODE 1 Plan developed The case management plan does not necessarily need to be in operation to record yes; it is whether one has been developed and there is an intention to carry it out. CODE 2 Plan agreed to by client or advocate The client or their advocate (such as a parent or partner) agrees to the implementation of the plan. The plan does not need to be implemented to record this code. In many cases of statutory intervention, whilst desirable, client agreement is not essential. CODE 3 Plan implemented Some part of the plan must be implemented. That is, the plan must be in operation at the time of recording.
-----------------------	---

Data element attributes

Collection and usage attributes

Guide for use: Multiple responses may be recorded for Codes 1, 2 and 3. If a plan is implemented (Code 3 Plan implemented), then of necessity it must also have been developed (Code 1 Plan developed). Code 0 Not applicable, and Code 9 Not stated/inadequately described, can only be recorded individually though.

Collection methods: This metadata item would be collected either at an initial assessment or subsequent reassessment of a person(s).

Due to the variety across community services as to what constitutes a case management plan, and whether it is considered to be developed, agreed to and implemented, it is up to individual collections to further clearly specify these aspects when collecting data for their individual purposes.

Individual collections may also have certain quality issues regarding case management plans that may be as important as whether or not one has been developed.
