
Neonate

Important note: This is an archived metadata standard from the AIHW Knowledgebase. For current metadata standards and related information please access METeOR, the AIHW's Metadata Online Registry at <http://meteor.aihw.gov.au>

Identifying and Definitional Attributes

Data Dictionary: NHDD
Knowledgebase ID: 000103 Version number: 1
Metadata type: DATA ELEMENT CONCEPT
Admin status: SUPERSEDED Effective date: 01-MAR-05
Definition: A live birth who is less than 28 days old.
Context: Perinatal.

Relational and Representational Attributes

Datatype:

Administrative Attributes

Source Document: International Classification of Diseases and Related Health Problems, 10th Revision, WHO, 1992
Source Organisation: National Health Data Committee, National Perinatal Data Development Committee
National Perinatal Data Advisory Committee
Comments: The neonatal period is exactly four weeks or 28 completed days, commencing on the date of birth (day 0) and ending on the completion of day 27. For example, a baby born on 1 October remains a neonate until completion of the four weeks on 28 October and is no longer a neonate on 29 October.
