DSS specific information:

In the Child Protection NMDS, this data item is applicable only for children on guardianship/custody orders where the jurisdiction is in the place of a parent (in loco parentis). If a child is on another type of order, this item should be left blank.

In this NMDS, this item refers to a primary allocated caseworker only. A primary allocated caseworker is defined as the person who has principle responsibility for recommending what decisions are made by the child protection service and has regular face-to-face contact with the child/family. There can only be one primary allocated caseworker at any point in time.

Each time a child is assigned a new primary caseworker, the date this takes effect should be recorded. If the child's caseworker changes from A to B then back to A and the length of time that A is the allocated caseworker is less than 6 weeks, then this does not count as a new caseworker and should not be recorded.
