Cancer treatment—radiotherapy completion date, DDMMYYYY

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Radiotherapy completion date
METEOR identifier:	394464
Registration status:	Health , Superseded 08/05/2014
Definition:	The completion date of the radiotherapy administered during the initial course of treatment for cancer, expressed as DDMMYYYY.

Data element concept attributes

Identifying and definitional attributes

Data element concept:	Cancer treatment—radiotherapy completion date
METEOR identifier:	394469
Registration status:	Health , Superseded 08/05/2014
Definition:	The completion date of radiotherapy administered during the initial course of treatment for cancer.
Object class:	Cancer treatment
Property:	Radiotherapy completion date

Value domain attributes

Identifying and definitional attributes

Value domain:	Date DDMMYYYY
METEOR identifier:	270566
Registration status:	Aged Care , Standard 30/06/2023 Australian Institute of Health and Welfare , Recorded 09/08/2023 Australian Teacher Workforce Data Oversight Board , Standard 30/08/2022 Children and Families , Standard 22/11/2016 Commonwealth Department of Health , Retired 19/10/2023 Community Services (retired) , Standard 01/03/2005 Disability , Standard 07/10/2014 Early Childhood , Standard 21/05/2010 Health , Standard 01/03/2005 Homelessness , Standard 23/08/2010 Housing assistance , Standard 01/03/2005 Independent Hospital Pricing Authority , Standard 31/10/2012 Indigenous , Standard 11/08/2014 National Health Performance Authority (retired) , Retired 01/07/2016 Tasmanian Health , Standard 31/08/2016 WA Health , Standard 06/03/2014 Youth Justice , Standard 15/02/2022
Definition:	The day of a particular month and year.

Representational attributes

Data element attributes

Collection and usage attributes

Guide for use: The completion date for radiotherapy is the date the last dose was administered. Record the completion date of radiotherapy for all courses administered during the initial course of treatment for cancer. The initial course of treatment includes all treatments administered to the patient from diagnosis and before disease progression or recurrence.

The patient may receive more than one course of radiotherapy during the initial course of treatment. For example, radiotherapy may be administered to the primary site and the site of a distant metastasis. Record the completion date for each course of treatment.

The completion date of radiotherapy is recorded regardless of whether the course of treatment is completed as intended, and regardless of the intent or timing of treatment.

Record the completion date for radiotherapy administered as external beam radiotherapy or brachytherapy. Do not include radiotherapy with unsealed radioisotopes.

Dates of surgery, systemic agent therapies and systemic therapy procedures are collected as separate items.

Collection methods: The radiotherapy completion date will typically be found in the radiation oncologist's summary letter for the initial course of treatment or in the radiotherapy treatment summary in the patient's medical record.

Comments: Collecting the start and finish dates for treatment modalities will enable an estimate of treatment duration.
