Value domain attributes

Identifying and definitional attributes

Value domain:	Treatment funding source code N
METEOR identifier:	599880
Registration status:	Health , Standard 04/02/2015
Definition:	A codeset representing the source of funding for a treatment procedure or course of treatment.

Representational attributes

Representation class:	Code
Data type:	Number
Format:	N
Maximum character length:	1

	Value	Meaning
Permissible values:	1	Public
	2	Private
	3	Compensable
	4	Private and compensable

Collection and usage attributes

Guide for use:

Record the source of funding for a treatment procedure or course of treatment as outlined below.

CODE 1 Public

To be recorded if records indicate that the whole of treatment was paid for under a health service budget, Department of Veterans' Affairs, Department of Defence, a correctional facility, or the Medical Benefits Scheme.

CODE 2 Private

To be recorded if records indicate that any part of treatment was paid for by a health insurance fund or paid for directly by the patient or significant other and none of their treatment was received under compensable funding.

CODE 3 Compensable

To be recorded if records indicate that any part of treatment was paid for by worker's compensation, motor vehicle third party personal claim, public liability, common law, or medical negligence claim and none of their treatment was received under private funding.

CODE 4 Both private and compensable

To be recorded if records indicate that any part of treatment was paid for by a health insurance fund or paid for directly by the patient or significant other and any part of their treatment was paid for by worker's compensation, motor vehicle third party personal claim, public liability, common law, or medical negligence claim.

While this codeset records private and compensable funding as separate categories, it should be noted that compensable treatment is often classed as a subset of private funding sources.
