# Cancer treatment—chemotherapy start date

### Identifying and definitional attributes

Metadata item type: Data Element Concept

METEOR identifier: 561271

Registration status: Health, Standard 08/05/2014

**Definition:** The start date of <u>chemotherapy</u> administered during the course of treatment for

cancer.

### **Object Class attributes**

### Identifying and definitional attributes

Object class: <u>Cancer treatment</u>

**Definition:** The course of cancer-directed treatment or treatments, with defined dates of

commencement and cessation, given to the patient by a treatment provider or team

of providers.

This may include cancer-directed surgical treatment, radiation therapy and systemic agent therapy for cancer. It applies to the primary course of cancer treatment, treatment administered to the patient in response to disease progression or treatment administered to the patient in response to disease

recurrence.

Specialisation of: Service/care event

# Property attributes

# Identifying and definitional attributes

Property: Chemotherapy start date

**Definition:** The date on which chemotherapy commenced.

Chemotherapy is the treatment of disease by means of chemical substances or drugs; usually used in reference to neoplastic disease. Chemotherapy for the treatment of cancer achieves its antitumour effect through the use of antineoplastic drugs that inhibit the reproduction of cancer cells by interfering with DNA synthesis

and mitosis.

Chemotherapy may involve treatment with a single agent or a combination of two or

more drugs that are administered in treatment cycles and according to a

prespecified regimen or protocol.

Property group: Entry into service event
