Cancer treatment—chemotherapy start date, DDMMYYYY

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Chemotherapy start date
METEOR identifier:	561273
Registration status:	Health , Standard 08/05/2014
Definition:	The start date of chemotherapy administered during the course of treatment for cancer, expressed as DDMMYYYY.
Data Element Concept:	Cancer treatment—chemotherapy start date
Value Domain:	Date DDMMYYYY

Value domain attributes

Representational attributes

Representation class:	Date
Data type:	Date/Time
Format:	DDMMYYYY
Maximum character length:	8

Source and reference attributes

Submitting organisation:	Australian Institute of Health and Welfare

Data element attributes

Collection and usage attributes

Guide for use:	<p>Chemotherapy is cancer treatment that achieves its antitumour effect through the use of antineoplastic drugs that inhibit the reproduction of cancer cells by interfering with DNA synthesis and mitosis.</p> <p>Record the first or earliest date chemotherapy was administered during the course of treatment.</p> <p>The start date of the chemotherapy is recorded regardless of whether the course of treatment is completed as intended, and regardless of the intent or timing of chemotherapy.</p> <p>Multiple entries are not permitted.</p> <p>Dates relating to targeted therapies using a chemotherapy agent are included. Targeted therapies are treatments that use drugs or other substances to identify and attack specific cancer cells.</p> <p>Dates of surgery, radiotherapy and other systemic treatments are collected as separate items. However, if a patient receives treatment with a protocol that includes different types of systemic therapy agents, for example, a chemotherapy agent and a hormone therapy agent, record the start date of treatment in both relevant data items.</p>
Collection methods:	The information should be obtained from the patient's medical record.

Comments: Collecting the start and finish dates for treatment modalities will enable an estimate of treatment duration.
