Service type outlet—geographic location, code (ASGC 2011) NNNNN

Exported from METEOR (AIHW's Metadata Online Registry)

Service type outlet—geographic location, code (ASGC 2011) NNNNN

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Geographic location of service type outlet (SLA)
Synonymous names:	Statistical local area of service type outlet
METEOR identifier:	621560
Registration status:	Disability, Standard 29/02/2016
Definition:	The geographical location of a service type outlet using a five digit numerical code which indicates the **Statistical Local Area (SLA)** within the state or territory of Australia.
Data Element Concept:	Service type outlet—geographic location
Value Domain:	Geographical location code (ASGC 2011) NNNNN

Value domain attributes

Representational attributes

Classification scheme:	Australian Standard Geographical Classification 2011
Representation class:	Code
Data type:	Number
Format:	NNNNN
Maximum character length:	5

Source and reference attributes

Submitting organisation:	Australian Institute of Health and Welfare

Data element attributes

Collection and usage attributes

Guide for use:	Details on which edition was used in a particular data set should be included in the documentation of metadata accompanying that data set. Coding to ASGC codes is preferably done using the ABS Locality to Statistical Local Area (SLA) Index. The Locality to SLA Index will facilitate the coding of addresses to SLA on the basis of State, Locality and Postcode. It effectively replaces the localities file of the National Localities Index (NLI) which was discontinued after the ASGC 2007.

Implementation in Data Set Specifications:

[Disability Services NMDS 2015–16](#)
[Disability](#), Superseded 28/09/2016
Implementation start date: 01/07/2015
Implementation end date: 30/06/2016
Conditional obligation:

In the Disability Services Minimum Data Set (DS NMDS), SLA is optionally collected in relation to the **service type outlet**. It refers to a numeric 4- or 5-digit Australian SLA based on the most recent Australian Bureau of Statistics (ABS) classification (Australian Standard Geographical Classification (ASGC) July 2011, ABS cat. no. 1216.0).

[Disability Services NMDS 2016–17](#)
[Disability](#), Superseded 15/12/2017
Implementation start date: 01/07/2016
Implementation end date: 30/06/2017
Conditional obligation:

In the Disability Services National Minimum Data Set (DS NMDS), SLA is optionally collected in relation to the **service type outlet**. It refers to a numeric 4- or 5-digit Australian SLA based on the most recent Australian Bureau of Statistics (ABS) classification (Australian Standard Geographical Classification (ASGC) July 2011, ABS cat. no. 1216.0).

[Disability Services NMDS 2017–18](#)
[Disability](#), Superseded 05/07/2019
Implementation start date: 01/07/2017
Implementation end date: 30/06/2018
Conditional obligation:

In the Disability Services National Minimum Data Set (DS NMDS), SLA is optionally collected in relation to the **service type outlet**. It refers to a numeric 4- or 5-digit Australian SLA based on the most recent Australian Bureau of Statistics (ABS) classification (Australian Standard Geographical Classification (ASGC) July 2011, ABS cat. no. 1216.0).
