Use of guidelines and clinical condition

Identifying and definitional attributes

Metadata item type: Outcome Area

METEOR identifier: 624351

Registration status: Health, Standard 12/09/2016

Description: When a patient is prescribed antibiotics, whether empirical or directed, this is done

in accordance with the current version of the *Therapeutic guidelines:* antibiotic (Antibiotic Expert Group 2014) (or local peer reviewed antibiotic formulary that aligns with the current *Therapeutic guidelines: antibiotic*). This is also guided by the patient's clinical condition and/or the results of microbiology

testing.

Relational attributes
