Data element attributes

Collection and usage attributes

Guide for use: This data element may be used where 'Other' has been selected in the data

element: Person—sex, code X

This data element may be used to capture any further (optional) specification of sex descriptors. The inclusion of this write-in facility where the 'Other' code has been selected for Person—sex, code X allows respondents the opportunity to describe their sex using a term they are comfortable with, whilst also maximising the potential for analysis of the responses provided. For example, respondents could report terms such as 'indeterminate', 'intersex', 'non-binary', and 'unspecified' for

sex.

Data element sets implementing this data element should include a Conditional obligation with the following text: 'Conditional on 'Other' response in the data

element: Person—sex, code X'.
