Transgender

Identifying and definitional attributes

Metadata item type:	Glossary Item
METEOR identifier:	645820
Registration status:	Health , Standard 23/08/2018
Definition:	A general term for a person whose gender identity is different to their sex at birth. A trans person may take steps to live in their nominated sex with or without health intervention(s).

Collection and usage attributes

Comments:	A person's sex may change during their lifetime as a result of surgical procedures known alternatively as sex change, gender reassignment, transsexual surgery, transgender reassignment or sexual reassignment. Throughout this process, which may be over a considerable period of time, sex could be recorded as either male or female.
