Service Agreement - Department of Health Tasmania: 2018, Admitted patient episode coding (clinical coding) including contracted care - timeliness, 2018

Identifying and definitional attributes

| | |
|-----------------------------|--|
| Metadata item type: | Indicator |
| Indicator type: | Indicator |
| Short name: | Admitted patient episode coding (clinical coding) including contracted care - timeliness |
| METEOR identifier: | 700645 |
| Registration status: | Tasmanian Health , Superseded 24/07/2019 |
| Description: | This KPI measures the percentage of admitted patient episodes coded within 42 days of the episode separation. |
| Indicator set: | Service Plan - Department of Health Tasmania: 2018 Tasmanian Health , Superseded 24/07/2019 |

Collection and usage attributes

| | |
|---------------------------------|--|
| Computation description: | This KPI is measured as a percentage. |
| | All admitted patient episode separations within the specified assessment period are within scope. The coding date (considered to be the date recorded against the principal diagnosis field in iPM) will be compared with the separation date. All records not coded within 42 days of the separation date will be considered to fail. |
| Computation: | $100 \times (\text{Numerator} \div \text{Denominator})$ |
| Numerator: | Number of admitted patient episode separations for the KPI assessment period coded within 42 days |
| Denominator: | Number of admitted patient episode separations including contracted care for the KPI assessment period |

Representational attributes

| | |
|------------------------------|------------|
| Representation class: | Percentage |
| Data type: | Real |
| Unit of measure: | Episode |
| Format: | NN[N] |

Accountability attributes

| | |
|--------------------------------|---------------------------|
| Reporting requirements: | 2018-19 Service Agreement |
|--------------------------------|---------------------------|

Relational attributes
