Australian Tertiary Admission Rank N[N]{.NN}

Identifying and definitional attributes

Metadata item type:	Value Domain
Synonymous names:	ATAR N[N]{.NN}
METEOR identifier:	758242
Registration status:	Australian Teacher Workforce Data Oversight Board , Standard 30/08/2022
Definition:	A numeric value representing Australian Tertiary Admission Rank (ATAR).

Representational attributes

Representation class:	Total	
Data type:	Number	
Format:	N[N]{.NN}	
Maximum character length:	4	
	Value	Meaning
Supplementary values:	0	Not available
Unit of measure:	Ranking	
Unit of measure precision:	2	

Collection and usage attributes

Guide for use:	<p>The ATAR is a ranking from 0.05 up to 99.95 agreed by Council of Australian Governments (COAG) as a nationally equivalent measure of a person's relative academic ranking within their complete age cohort in the year they graduated from senior secondary school. The ATAR reported on this element is to be the 'raw ATAR' and is not to include any adjustment factors, such as bonus points.</p> <p>Data must be reported for all domestic students and domestic applicants who are recent school leavers as defined in the glossary (Australian Government 2021b). Data should also be reported for other students and applicants if the Provider has this information.</p> <p>For students who completed high school in Queensland before Queensland adopted the ATAR, the "Overall Position" (OP) values are to be reported at the ATAR equivalent.</p> <p>For students who complete the International Baccalaureate in Australia, Scores are to be reported at the ATAR equivalent.</p> <p>Those values are to be reported in full, without rounding.</p> <p>Valid ATAR values range from 0.05 to 99.95, with 0 meaning that an ATAR is not available.</p>
