DSS specific information:

This collection requires a non-standard format for this data item: DD/MM/YYYY.

In the Teacher Registration data cluster, this element collects the date from which a person's accreditation level/registration to be a **registered teacher** takes effect.

The Victorian Institute of Teaching (VIT) register allows teachers to have dual registration. For example, a person may have dual registration as a teacher and early childhood teacher. Therefore, the earliest registration date of the initial registration is provided for this element.
