Synonymous name(s)

The following information is applicable to all metadata items except Classification Schemes.

The following do not have a synonymous name(s) - Data set specification, Data source, Indicator Set, Outcome Area

Definition

One or more synonyms for the metadata item name within the context of the given item. For older metadata items that existed prior to METEOR, the synonymous name is the name of the metadata item as it existed in the AIHW Knowledgebase.

Obligation

Optional completion.

Development rules

List any synonyms for the metadata item name which may be used to identify the item.

Express the first word of each synonymous name with a capital letter. Express all other words in a synonymous name with lower-case letter, unless referring to a proper noun. For example synonymous names for the property *Procedure* may include: *Clinical intervention; Operation; Surgery*

Separate each synonymous name with a semicolon and space.

End the list of synonymous names without a full stop.
