

Data set specification name

The following information is applicable to data set specifications only.

Definition

A single or multi-word designation assigned to a data set specification.

Obligation

Mandatory completion.

Development rules

The name should be concise and indicative of the content of the data set specification.

Hyphens (-) should only be used when two or more words are turned into a single compound word. Do not leave any spaces before or after the hyphen. For example, 'on-call', 'waist-to-hip ratio'.

Do not include any of the following in a data set specification name:

- Quotation marks
- Colons (:)
- Commas
- Full stops
- Square brackets

Slashes (/) are permitted; do not include any spaces before or after the slash.
