Elective surgery waiting list episode—reason for removal from a waiting list

Identifying and definitional attributes

Metadata item type:	Data Element Concept
METEOR identifier:	269476
Registration status:	Health , Superseded 25/01/2018 National Health Performance Authority (retired) , Retired 01/07/2016 Tasmanian Health , Standard 07/12/2016
Definition:	The reason why a patient is removed from the waiting list.
Context:	Elective surgery: Routine admission for the awaited procedure is only one reason why patients are removed from the waiting list. Each reason for removal provides different information. These data are necessary to augment census and throughput data. For example, after an audit the number of patients on a list would be expected to reduce. If an audit were undertaken immediately prior to a census the numbers on the list may appear low and not in keeping with the number of additions to the list and patients admitted from the list.

Object Class attributes

Identifying and definitional attributes

Object class:	Elective surgery waiting list episode
Definition:	The period between entry to and removal from an elective surgery waiting list.
Specialisation of:	Service episode

Source and reference attributes
