

Person (address)—street name

Metadata item type: Data Element Concept

METEOR identifier: 269490

Registration status:

- [Community Services \(retired\)](#), Superseded 06/02/2012
- [Health](#), Superseded 07/12/2011

Definition: The concatenation of a person's street type and street suffix resulting in a name that identifies a public thoroughfare and differentiates it from others in the same suburb/town/locality.

Object Class attributes

Identifying and definitional attributes

Object class: [Person](#)

Definition: A human being.

Collection and usage attributes

Comments: Prior to 13 March 2018, the definition of the 'Person' Object class was 'A human being, whether man, woman or child'. From 13 March 2018, the definition was edited by removing the words '...whether man, woman or child' so that a person is defined as 'A human being'. This amendment was undertaken to align the definition of a person with the *Australian Government Guidelines on the Recognition of Sex and Gender* and the Australian Bureau of Statistics (ABS) *Standard for Sex and Gender Variables*, which recognise that there are sex and gender types that are not exclusively male or female.
