Establishment—recurrent expenditure (visiting medical officer payments)

Identifying and definitional attributes

Metadata item type:	Data Element Concept
METEOR identifier:	269520
Registration status:	Health , Standard 01/03/2005
Definition:	<p>All payments made by an institutional health care establishment to visiting medical officers for medical services provided to hospital (public) patients on an honorary, sessionally paid, or fee for service basis.</p> <p>A visiting medical officer is a medical practitioner appointed by the hospital board to provide medical services for hospital (public) patients on an honorary, sessionally paid, or fee for service basis. This category includes the same Australian Standard Classification of Occupations codes as the salaried medical officers category.</p>
Context:	<p>Health expenditure:</p> <p>This is a significant element of expenditure for many hospitals (although not for other establishments) and needed for health financing and health expenditure analysis at the national level. Any analysis of health expenditures at the national level would tend to break down if significant components of expenditure were not available.</p>

Object Class attributes

Identifying and definitional attributes

Object class:	Establishment
Definition:	Institutions, organisations or the community from which health services are provided. The term establishment covers conventional health establishments and also organisations which may provide services in the community.
Specialisation of:	Organisation

Source and reference attributes

Origin:	National Health Data Committee
