# Establishment—specialised service indicator

## Identifying and definitional attributes

Metadata item type:	Data Element Concept
METEOR identifier:	269612
Registration status:	<a href="#">Health</a> , Standard 01/03/2005
Definition:	Specialised services provided in establishments.
Context:	Health services:  Essential to provide a broad picture of the availability of key specialised services by State and region and to assist with planning if services are over supplied in one region relative to another.

## Object Class attributes

### Identifying and definitional attributes

Object class:	<a href="#">Establishment</a>
Definition:	Institutions, organisations or the community from which health services are provided. The term establishment covers conventional health establishments and also organisations which may provide services in the community.
Specialisation of:	<a href="#">Organisation</a>

### Source and reference attributes

Origin:	National Health Data Committee
---------	--------------------------------

## Property attributes

### Identifying and definitional attributes

Property:	<a href="#">Specialised service indicator</a>
Definition:	An indicator of the capacity to provide specialised service.
Property group:	<a href="#">Organisational characteristics</a>

### Source and reference attributes

Submitting organisation:	Australian Institute of Health and Welfare
