Definition: The aggregate full-time equivalent staff units for all paid staff.

Full-time equivalent staff units are the on-job hours paid for (including overtime) and hours of paid leave of any type for a staff member (or contract employee where applicable) divided by the number of ordinary-time hours normally paid for a full-time staff member when on the job (or contract employee where applicable).

Context: Resource and service planning:

To assist in analyses of the resource use and activity of institutional health care providers. Inclusion of these data, classified by staffing category, allows analysis of costs per unit of labour and analysis of staffing inputs against establishment outputs.
