

Hospital service—care type

Metadata item type: Data Element Concept

METEOR identifier: 269641

Registration status:

- [Health](#), Superseded 07/02/2013

Definition: The overall nature of a clinical service provided to an admitted patient during an episode of care (admitted care), or the type of service provided by the hospital for boarders or [posthumous organ procurement](#) (other care).

Context: Admitted patient care and hospital activity:

For admitted patients, the type of care received will determine the appropriate casemix classification employed to classify the episode of care.

Object Class attributes
