Establishment—recurrent expenditure (interest payments)

Identifying and definitional attributes

Metadata item type:	Data Element Concept
METEOR identifier:	269653
Registration status:	Health , Standard 01/03/2005
Definition:	Payments made by or on behalf of the establishment in respect of borrowings (e.g. interest on bank overdraft) provided the establishment is permitted to borrow. This does not include the cost of equity capital (i.e. dividends on shares) in respect of profit-making private establishments.
Context:	Health expenditure: This metadata item has been retained in the data set because of its significance for the private sector. Private profit-making establishments will seek to fund their operations either by loan borrowings (debt capital) or raising shares (equity capital). The cost of either can be significant, although the cost of the latter (that is, dividends on shares) would come out of profits.

Object Class attributes

Identifying and definitional attributes

Object class:	Establishment
Definition:	Institutions, organisations or the community from which health services are provided. The term establishment covers conventional health establishments and also organisations which may provide services in the community.
Specialisation of:	Organisation

Source and reference attributes

Origin:	National Health Data Committee
----------------	--------------------------------

Property attributes

Identifying and definitional attributes

Property:	Recurrent expenditure
Definition:	Expenditure which does not result in the acquisition or enhancement of an asset.
Property group:	Financial characteristics

Source and reference attributes

Submitting organisation:	Australian Institute of Health and Welfare
Reference documents:	Australian Bureau of Statistics: Government Finance Statistics 1998, Cat. No. 5514.0
