

Establishment—number of group session occasions of service for non-admitted patients

Metadata item type: Data Element Concept

METEOR identifier: 269674

Registration status:

- [Health](#), Standard 01/03/2005

Definition: The number of non-admitted group session occasions of service provided by an establishment.

Context: Required to adequately describe the services provided to non-admitted patients.

The resources required to provide services to groups of patients are different from those required to provide services to an equivalent number of individuals. Hence services to groups of non-admitted patients or outreach clients should be counted separately from services to individuals.

Object Class attributes

Identifying and definitional attributes

Object class: [Establishment](#)

Definition: Institutions, organisations or the community from which health services are provided. The term establishment covers conventional health establishments and also organisations which may provide services in the community.

Specialisation of: [Organisation](#)

Source and reference attributes

Origin: National Health Data Committee

Property attributes

Identifying and definitional attributes

Property: [Number of group session occasions of service for non-admitted patients.](#)

Definition: A count of the non-admitted occasions of service provided as a group session.

Property group: [Performance indicators](#)

Source and reference attributes

Submitting organisation: Australian Institute of Health and Welfare

Data element concept attributes

Collection and usage attributes

Comments:

A group is defined as two or more patients receiving a service together where all individuals are not members of the same [family](#). Family services are to be treated as occasions of service to an individual.

In general, establishments other than acute hospitals provide a much more limited range of services for non-admitted patients and outreach/community patients/clients. Therefore, disaggregation by type of non-admitted patient care is not relevant to alcohol and drug hospitals.
