

Community nursing service episode—goal of care

Metadata item type: Data Element Concept
METEOR identifier: 269680
Registration status:

- [Health](#), Standard 01/03/2005

Definition: The goal or expected outcome of a plan of care, negotiated by the service provider and recipient, which outlines the overall aim of actions planned by a community service and relates to a person's health need. This goal reflects a total care plan and takes into account the possibility that a range of community services may be provided within a specified time frame.

Context: This metadata item focuses on the broad goal which the person and services provider hope to achieve within an expected time period and takes into account the intervention or services provided by a range of community services.
