

Establishment—number of day centre attendances

Metadata item type: Data Element Concept
METEOR identifier: 269696
Registration status:

- [Health](#), Standard 01/03/2005

Definition: A count of the number of patient/client visits to day centres. Each individual is to be counted once for each time they attend a day centre. Where an individual is referred to another section of the hospital/centre and returns to the day centre after treatment only one visit is to be recorded.
