

Establishment—recurrent expenditure (indirect health care)

Metadata item type: Data Element Concept

METEOR identifier: 269719

Registration status:

- [Health](#), Standard 01/03/2005

Definition: Expenditures on health care that cannot be directly related to programs operated by a particular establishment (that is, can only be indirectly related to particular establishments).

Context: Health expenditure:

To improve and substantiate financial reporting in relation to indirect health care expenditure and assist in understanding differences in costs for similar establishments in different States and regions, due to differences in the extent to which support services and other services to residents/inpatients and outpatients of establishments may be provided by the establishment itself or by other bodies.

Object Class attributes
