Non-admitted patient emergency department service episode—type of visit to emergency department

Identifying and definitional attributes

| | |
|----------------------|---|
| Metadata item type: | Data Element Concept |
| METEOR identifier: | 269793 |
| Registration status: | Health , Superseded 22/12/2011 |
| Definition: | The reason the patient presents to an emergency department. |
| Context: | Hospital non-admitted patient care |

Object Class attributes

Identifying and definitional attributes

| | |
|----------------------|---|
| Object class: | Non-admitted patient emergency department service episode |
| METEOR identifier: | 268976 |
| Registration status: | Health , Superseded 22/12/2011 |
| Definition: | The treatment or care between when a patient presents at an emergency department and when the non-admitted patient emergency department treatment or care ends. |
| Context: | Emergency department care. |
| Specialisation of: | Service episode |

Collection and usage attributes

| | |
|----------------|--|
| Guide for use: | <p>Includes patients who do not wait for treatment once registered or triaged, and those who are dead on arrival at the emergency department.</p> <p>Both a non-admitted patient emergency department service episode and an admitted patient episode of care should be recorded for patients who subsequently undergo a formal admission. The end of the non-admitted patient emergency department service episode should indicate the commencement of the admitted episode of care, if applicable.</p> <p>A non-admitted patient emergency department service episode ends when either the patient is admitted or, if the patient is not to be admitted, when the patient is recorded as ready to leave the emergency department or when they are recorded as having left at their own risk.</p> |
| Comments: | This metadata item has been defined to support the national minimum data set for Non-admitted patient emergency department care. |
