

# Establishment—gross capital expenditure (accrual accounting) (information technology)

**Metadata item type:** Data Element Concept

**METEOR identifier:** 269905

**Registration status:**

- [Health](#), Standard 01/03/2005

**Definition:** Expenditure in a period on the acquisition or enhancement of information technology.

**Context:** Health expenditure:

Gross capital expenditure is a significant, though variable, element of total health establishment expenditure. Just as recurrent expenditure is broken down into a number of major categories to enable a proper analysis of health expenditure at the national level, so capital expenditure is to be broken down into a number of major categories. Capital expenditure in the context of hospitals and closely related establishments is a relatively undeveloped area. Nevertheless, there is a considerable interest in health establishment capital expenditure data at the national level from many different potential users.
