

# Establishment—net capital expenditure (accrual accounting) (information technology)

**Metadata item type:** Data Element Concept  
**METEOR identifier:** 269913  
**Registration status:**

- [Health](#), Standard 01/03/2005

**Definition:** Net capital expenditure on information technology.

**Context:** Health expenditure:

Net capital expenditure is a significant, though variable, element of total health establishment expenditure. Just as recurrent expenditure is broken down into a number of major categories to enable a proper analysis of health expenditure at the national level, so capital expenditure is to be broken down into a number of major categories. Capital expenditure in the context of hospitals and closely related establishments is a relatively undeveloped area. Nevertheless, there is a considerable interest in health establishment capital expenditure data at the national level from many different potential users.

## Object Class attributes

### Identifying and definitional attributes

**Object class:** [Establishment](#)

**Definition:** Institutions, organisations or the community from which health services are provided. The term establishment covers conventional health establishments and also organisations which may provide services in the community.

**Specialisation of:** [Organisation](#)

### Source and reference attributes

**Origin:** National Health Data Committee
