Definition:	The status of the patient at the end of the non-admitted patient emergency department service episode, as represented by a code.

Data element concept attributes

Identifying and definitional attributes

Data element concept:	Non-admitted patient emergency department service episode—patient departure status
METEOR identifier:	269441
Registration status:	Health , Superseded 24/03/2006
Definition:	The status of the patient at the end of the non-admitted patient emergency department service episode.
Context:	Non-admitted patient emergency department care.
Object class:	Non-admitted patient emergency department service episode
Property:	Patient departure status

Value domain attributes

Identifying and definitional attributes

Value domain:	Emergency department patient departure status code N
METEOR identifier:	270599
Registration status:	Health , Superseded 24/03/2006
Definition:	A code set representing the status of a patient at the end of a non-admitted patient emergency department service episode.

Representational attributes

Representation class:	Code	
Data type:	Number	
Format:	N	
Maximum character length:	1	
	Value	Meaning
Permissible values:	1	Admitted to this hospital (including to units or beds within the emergency department)
	2	Non-admitted patient emergency department service episode completed - departed without being admitted or referred to another hospital
	3	Referred to another hospital for admission

4	Did not wait to be attended by a health care professional
5	Left at own risk after being attended by a health care professional but before the non-admitted patient emergency department service episode was completed
6	Died in emergency department as a non-admitted patient
7	Dead on arrival, not treated in emergency department

Collection and usage attributes

Guide for use: CODE 2 Non-admitted patient emergency department service episode completed - departed without being admitted or referred to another hospital

This code includes patients who departed under their own care, under police custody and under the care of a residential aged care facility or other carer. Code 2 excludes those who died in the emergency department, which should be coded to Code 6.

Data element attributes

Collection and usage attributes

Guide for use: A non-admitted patient emergency department service episode ends when either the patient is admitted or, if the patient is not to be admitted, when the patient is recorded as ready to leave the emergency department or when they are recorded as having left at their own risk.

Source and reference attributes

Submitting organisation: National reference group for non-admitted patient data development, 2001-02
