Episode of treatment for alcohol and other drugs—treatment type (main), code N

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Main treatment type for alcohol and other drugs
METEOR identifier:	270056
Registration status:	Health , Superseded 12/12/2018
Definition:	The main activity determined at assessment by the treatment provider to treat the client's alcohol and/or drug problem for the principal drug of concern, as represented by a code.

Data element concept attributes

Identifying and definitional attributes

Data element concept:	Episode of treatment for alcohol and other drugs—treatment type
METEOR identifier:	269923
Registration status:	Health , Standard 01/03/2005
Definition:	The type of treatment provided to a client during an episode of treatment for alcohol and other drugs.
Context:	Alcohol and other drug treatment services
Object class:	Episode of treatment for alcohol and other drugs
Property:	Treatment type

Value domain attributes

Identifying and definitional attributes

Value domain:	Main treatment type for alcohol and other drugs code N
METEOR identifier:	270660
Registration status:	Health , Superseded 12/12/2018
Definition:	A code set representing the main type of treatment provided for alcohol and other drugs.

Representational attributes

Representation class:	Code
Data type:	Number
Format:	N
Maximum character length:	1

	Value	Meaning
Permissible values:	1	Withdrawal management (detoxification)
	2	Counselling
	3	Rehabilitation
	4	Pharmacotherapy

5	Support and case management only
6	Information and education only
7	Assessment only
8	Other

Collection and usage attributes

Guide for use:

CODE 1 Withdrawal management (detoxification)

This code refers to any form of withdrawal management, including medicated and non-medicated, in any delivery setting.

CODE 2 Counselling

This code refers to any method of individual or group counselling directed towards identified problems with alcohol and/or other drug use or dependency. This code excludes counselling activity that is part of a rehabilitation program as defined in Code 3.

CODE 3 Rehabilitation

This code refers to an intensive treatment program that integrates a range of services and therapeutic activities that may include counselling, behavioural treatment approaches, recreational activities, social and community living skills, group work and relapse prevention. Rehabilitation treatment can provide a high level of support (i.e. up to 24 hours a day) and tends towards a medium to longer-term duration. Rehabilitation activities can occur in residential or non-residential settings. Counselling that is included within an overall rehabilitation program should be coded to Code 3 for Rehabilitation, not to Code 2 as a separate treatment episode for counselling.

CODE 4 Pharmacotherapy

Refers to pharmacotherapies that include those used as maintenance therapies (e.g. naltrexone, buprenorphine, and methadone treatment) and those used as relapse prevention. Use Code 1 (withdrawal management) where a pharmacotherapy is used solely for withdrawal. Note collection exclusions: excludes treatment episodes for clients who are on an opioid pharmacotherapy maintenance program and are not receiving any other form of treatment.

CODE 5 Support and case management only

Refers to when there is no treatment provided to the client other than support and case management (e.g. treatment provided through youth alcohol and drug outreach services). This choice only applies where support and case management treatment is recorded as individual client data and the treatment activity is not included in any other category.

CODE 6 Information and education only

Refers to when there is no treatment provided to the client other than information and education. It is noted that, in general, service contacts would include a component of information and education.

CODE 7 Assessment only

Refers to when there is no treatment provided to the client other than assessment. It is noted that, in general, service contacts would include an assessment component.

Data element attributes

Collection and usage attributes

Guide for use:	Only one code to be selected.
	To be completed at assessment or commencement of treatment.
	The main treatment type is the principal activity as judged by the treatment provider that is necessary for the completion of the treatment plan for the principal drug of concern. The main treatment type for alcohol and other drugs is the principal focus of a single treatment episode. Consequently, each treatment episode will only have one main treatment type. For brief interventions, the main treatment type may apply to as few as one contact between the client and agency staff.
Comments:	Information about treatment provided is of fundamental importance to service delivery and planning.
