Data element attributes

Collection and usage attributes

Guide for use:	<p>The election status nominated by the patient at the time of being placed on an elective surgery waiting list, to be treated as either:</p> <ul style="list-style-type: none"> • a public patient; or • a private patient <p>This item is independent of patient's hospital insurance status. The definitions of a public and private patient are those in the 1998-2003 Australian Health Care Agreements</p> <p>Patients whose charges are to be met by the Department of Veterans' Affairs are regarded as private patients.</p>
Comments:	<p>Anticipated election status may be used for the management of elective surgery waiting lists, but the term is not defined under the 1998-2003 Australian Health Care Agreements. Under the Australian Health Care Agreements, patients are required to elect to be treated as a public or private patient, at the time of, or as soon as practicable after admission. Therefore, the anticipated patient election status is not binding on the patient and may vary from the election the patient makes on admission.</p>
