Non-admitted patient service event—service mode, hospital code N{.N}

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Service mode (non-admitted patient)
METEOR identifier:	270096
Registration status:	Health , Superseded 06/10/2010
Definition:	Relative physical location of the patient, provider and the hospital campus of the provider of a non-admitted patient service event, as represented by a code.

Data element concept attributes

Identifying and definitional attributes

Data element concept:	Non-admitted patient service event—service mode
METEOR identifier:	269553
Registration status:	Health , Superseded 06/10/2010
Definition:	Relative physical location of the patient, provider and the hospital campus of the provider of a non-admitted patient service event.
Context:	Hospital non-admitted patient care.
Object class:	Non-admitted patient service event
Property:	Service mode

Value domain attributes

Identifying and definitional attributes

Value domain:	Hospital service mode code N{.N}
METEOR identifier:	270679
Registration status:	Health , Standard 01/03/2005
Definition:	A code set representing the relative physical location of the patient and service provider.

Representational attributes

Representation class:	Code	
Data type:	Number	
Format:	N{.N}	
Maximum character length:	2	
Permissible values:	Value	Meaning
	1	Patient and provider in the same physical location
	1.1	On the hospital campus of the provider
	1.2	Not on the hospital campus of the provider
	2	Patient and provider not in the same physical location, and communicating via:

2.1	Telephone
2.2	Telemedicine

Collection and usage attributes

Guide for use:

CODE 1.1 On the hospital campus of the provider

Patient and provider in the same physical location refers to face to face contacts. If this occurs at the hospital campus of the provider, use code 1.1.

CODE 1.2 Not on the hospital campus of the provider

If the service event does not occur on the hospital campus of the provider (hospital-based outreach services), use code 1.2.

Hospital-based outreach service events occur when the patient is treated by hospital staff in a location that is not part of the hospital campus (such as in the patient's home or place of work).

Patient and provider not in the same physical location refers to service events delivered via a telephone call or video link (telemedicine). The provider may or may not be physically present on their hospital campus.

A service event delivered via a telephone call is included if

- it is a substitute for a face-to-face service event, and
- it is pre-arranged, and
- a record of the service event is included in the patient's medical record

A service event can be counted at each site participating via a video link.
