Establishment—number of available beds for admitted patients/residents, average N[NNN]

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Number of available beds for admitted patients
METEOR identifier:	270133
Registration status:	Health , Superseded 03/12/2008
Definition:	The average number of beds which are immediately available for use by an admitted patient or resident within the establishment. A bed is immediately available for use if it is located in a suitable place for care with nursing and auxiliary staff available within a reasonable period.
Data Element Concept:	Establishment—number of available beds for admitted patients/residents
Value Domain:	Average beds N[NNN]

Value domain attributes

Representational attributes

Representation class:	Average
Data type:	Number
Format:	N[NNN]
Maximum character length:	4
Unit of measure:	Bed

Collection and usage attributes

Guide for use:	Average available beds, rounded to the nearest whole number.
----------------	--

Data element attributes

Collection and usage attributes

Guide for use:	The average bed is to be calculated from monthly figures.
Comments:	This metadata item was amended during 1996-97. Until then, both average and end-of-year counts of available beds were included, and the end-of-year counts used as surrogates for the average counts if the latter were unavailable. The average count is more useful for accurate characterisation of establishments and comparisons.

DSS specific information:

These data are to be disaggregated by specialised mental health service setting (excluding ambulatory care). For the admitted patient care setting these records are to be disaggregated by specialised mental health service program type and specialised mental health service target population.

For the Mental health establishments national minimum data set, available beds are restricted to available beds that are intended for overnight stays only. That is, beds that are only available for same day stays are not included in the count.
