

# Person—country of birth, code (SACC 1998) NNNN

## Identifying and definitional attributes

<b>Metadata item type:</b>	Data Element
<b>Short name:</b>	Country of birth
<b>METEOR identifier:</b>	270277
<b>Registration status:</b>	<ul style="list-style-type: none"><li>• <a href="#">Community Services (retired)</a>, Superseded 02/06/2008</li><li>• <a href="#">Health</a>, Superseded 01/10/2008</li><li>• <a href="#">Housing assistance</a>, Superseded 24/11/2008</li></ul>
<b>Definition:</b>	The country in which the person was born, as represented by a code.
<b>Data Element Concept:</b>	<a href="#">Person—country of birth</a>

## Value domain attributes

## Representational attributes

<b>Classification scheme:</b>	<a href="#">Standard Australian Classification of Countries 1998</a>
<b>Representation class:</b>	Code
<b>Data type:</b>	Number
<b>Format:</b>	NNNN
<b>Maximum character length:</b>	4

## Collection and usage attributes

<b>Guide for use:</b>	<p>The Standard Australian Classification of Countries 1998 (SACC) is a four-digit, three-level hierarchical structure specifying major group, minor group and country.</p> <p>A country, even if it comprises other discrete political entities such as states, is treated as a single unit for all data domain purposes. Parts of a political entity are not included in different groups. Thus, Hawaii is included in Northern America (as part of the identified country United States of America), despite being geographically close to and having similar social and cultural characteristics as the units classified to Polynesia.</p>
-----------------------	--

## Data element attributes

## Collection and usage attributes

**Collection methods:** Some data collections ask respondents to specify their country of birth. In others, a pre-determined set of countries is specified as part of the question, usually accompanied by an 'other (please specify)' category.

Recommended questions are:

In which country were you/was the person/was (name) born?

Australia

Other (please specify)

Alternatively, a list of countries may be used based on, for example common Census responses.

In which country were you/was the person/was (name) born?

Australia

England

New Zealand

Italy

Viet Nam

Scotland

Greece

Germany

Philippines

India

Netherlands

Other (please specify)

In either case coding of data should conform to the SACC.

Sometimes respondents are simply asked to specify whether they were born in either 'English speaking' or 'non-English speaking' countries but this question is of limited use and this method of collection is not recommended.

**Comments:** This metadata item is consistent with that used in ABS collections and is recommended for use whenever there is a requirement for comparison with ABS data.

[Commonwealth State/Territory Disability Agreement NMD - 1 July 2006Community Services \(retired\)](#), Superseded 14/12/2008

**DSS specific information:**

It is recommended that the 10 most frequently reported countries of birth are listed on data collection forms to simplify data collection and minimise coding load on service type outlets and funding departments. Where the country of birth is known but is not specified in the classification below, (i.e., is 'other country'), funded agencies should specify it on primary data collection forms. These will then be coded by funding departments to the appropriate SACC code.
