Value domain attributes

Representational attributes

Representation class:	Total
Data type:	Number
Format:	N[NN]
Maximum character length:	3
Unit of measure:	Occasion of service

Data element attributes

Collection and usage attributes

Comments:	Required to adequately describe the services provided to non-admitted patients. Apart from acute hospitals, establishments generally provide a much more limited range of services for non-admitted patients and outreach/community patients/clients. Therefore disaggregation by type of episode is not as necessary as in acute hospitals.
