Commonwealth State Housing Agreement community housing provider—target group, code N[N]

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Targeted CSHA community housing provider target groups
Synonymous names:	Targeted CSHA community housing provider target groups
METEOR identifier:	270326
Registration status:	Housing assistance , Retired 10/02/2006
Data Element Concept:	Commonwealth State Housing Agreement community housing provider—housing assistance target group
Value Domain:	Housing provider target group code N[N]

Value domain attributes

Representational attributes

Representation class:	Code
Data type:	Number
Format:	N[N]
Maximum character length:	2

	Value	Meaning
Permissible values:	1	Indigenous Australians
	2	People with a disability
	3	Non-English speaking background
	4	People aged 24 years and younger
	5	People aged 55 years and over
	6	People aged 65 years and over
	7	People aged 75 years and over
	8	Homeless people
	9	People escaping domestic violence
	10	People in multiple target groups
	11	Other target group not specified above
Supplementary values:	99	Not stated/inadequately described

Collection and usage attributes

Guide for use:	Low income household is not defined as a target group.
-----------------------	--

Collection methods:

Indigenous Australians:

Households that satisfy the Indigenous household definition. For more information see the definition of [Household—Indigenous status, code N](#).

People with a disability: Households that contain a person who has a disability. For more information see the definition of [Disability grouping code \(ICF 2001\) N\[N\]](#).

People from non-English speaking background: Households that contain a member from a non-English speaking background. Persons from a non-English speaking background are defined as persons born overseas and have a first language other than English, or one of their parents have those characteristics (Australian Bureau of Statistics 1997:2).

Age related target groups:

Households where the principal tenant is aged:

- 24 years and under;
- 55 years and over;
- 65 years and over;
- 75 years and over.

Principal tenant is defined as the person or principal person whose name appears on the tenancy agreement. Where this is not clear, it should be the person who is responsible for rental payments.

Providers who target older age related target groups (e.g. exclude the 24 years and under inclusive target group) should be counted in one target group only. For example, providers who target to 65yrs and over should be counted in the 65yr and over category only; do not also count these providers in the 75 yrs and over category.

Note that household level data counts only two age related categories 24 years and under and 65 years and older.

Homeless people: Homeless, for the purpose of the CSHA national standard, is defined as an applicant with no housing or an applicant residing in temporary or emergency accommodation at the time of housing allocation. It includes applicants who lived in accommodation provided by a Supported Accommodation Assistance Program agency or some other form of emergency accommodation; or were totally without permanent shelter (e.g. wandered from place to place, slept out on the street); or lived in shelter that was unlawful such as those who were forced to squat in derelict buildings; or stayed temporarily with friends or relatives in the short term.

People escaping domestic violence: Applicants living in a situation that place their life or safety at risk. This includes situations where people were subject to domestic violence; sexual/emotional abuse; child abuse; or at risk of violence or who feared for their safety in the home environment. Violence is defined as any incident involving the occurrence, attempt or threat of either physical or sexual assault. Physical assault involves the use of physical force with the intent to harm or frighten a person. The threat to harm should only be included if it is believed the harm is likely to be carried out. Sexual assault includes acts of a sexual nature against a person's will through the use of physical force, intimidation or coercion, or any attempts to do this.

People in multiple target groups: This category includes providers who target more than one group defined above and it is not possible to identify a primary target group.

Other target group not specified above: This category includes providers with a target group not specified above and where the provider target group is unknown.

Data element attributes

Collection and usage attributes

Comments: Should be supported by metadata items delineating the individual characteristics that define the target population, such as Sex, Country of birth, etc.
