# Person—interpreter service required status (health), code N

## Identifying and definitional attributes

|                       |  |
|-----------------------|--|
| Metadata item type:   | Data Element   |
| Short name:           | Need for interpreter service   |
| Synonymous names:     | Need for interpreter service   |
| METEOR identifier:    | 270345   |
| Registration status:  | <a href="#">Health</a> , Superseded 08/02/2006   |
| Definition:           | Need for interpreter services (yes/no) as perceived by the person, as represented by a code. |
| Data Element Concept: | <a href="#">Person—interpreter service required status (health)</a>                          |
| Value Domain:         | <a href="#">Health interpreter service required code N</a>                                   |

## Value domain attributes

## Representational attributes

|                                  |              |                        |
|----------------------------------|--------------|------------------------|
| <b>Representation class:</b>     | Code         |                        |
| <b>Data type:</b>                | Boolean      |                        |
| <b>Format:</b>                   | N            |                        |
| <b>Maximum character length:</b> | 1            |                        |
|                                  | <b>Value</b> | <b>Meaning</b>         |
| <b>Permissible values:</b>       | 0            | Interpreter not needed |
|                                  | 1            | Interpreter needed     |

## Data element attributes

## Collection and usage attributes

|           |   |
|-----------|---|
| Comments: | This metadata item has not been included in the National minimum data set - Admitted patient care because of reservations about its utility in assessing demand for interpreter services and concerns that a question of this nature might raise expectations of service provision which could not always be fulfilled. |
|-----------|---|

## Source and reference attributes

|         |                                |
|---------|--------------------------------|
| Origin: | National Health Data Committee |
|---------|--------------------------------|

## Relational attributes

|                              |  |
