Person—interpreter service required (community services), code N

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Interpreter services required
METEOR identifier:	270360
Registration status:	Community Services (retired) , Superseded 01/05/2006
Data Element Concept:	Person—interpreter service required (community services)
Value Domain:	Community services interpreter service required code N

Value domain attributes

Representational attributes

Representation class:	Code
Data type:	Number
Format:	N
Maximum character length:	1

	Value	Meaning
Permissible values:	1	Interpreter required
	2	Interpreter not required

Data element attributes

Collection and usage attributes

Collection methods: The Australian Standard Classification of Languages (ABS Cat. no. 1267.0) should be used for the identification of the language in which the interpreter is required.

Comments: For reasons of practicality and usefulness, sign languages and invented languages, which have not developed and evolved in the same fashion as 'natural' languages, have been included in the Australian Standard Classification of Languages.

Where interpreter services are provided using technology interface/aids or equipment refer to the metadata item 'Communication method'.
