Establishment—full-time equivalent staff (paid) (salaried medical officers), average N[NNN{.N}]

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Full-time equivalent staff—salaried medical officers
METEOR identifier:	270494
Registration status:	Health , Superseded 16/01/2020
Definition:	The average number of full-time equivalent staff units paid for all salaried medical officers within an establishment.
Data Element Concept:	Establishment—full-time equivalent staff (paid) (salaried medical officers)
Value Domain:	Average full-time equivalent staff N[NNN{.N}]

Value domain attributes

Representational attributes

Representation class:	Average
Data type:	Number
Format:	N[NNN{.N}]
Maximum character length:	5
Unit of measure:	Full-time equivalent (FTE) staff

Data element attributes

Collection and usage attributes

Guide for use:

Medical officers employed by the hospital on a full time or part time salaried basis. This excludes visiting medical officers engaged on an honorary, sessional or fee for service basis.

This metadata item includes salaried medical officers who are engaged in administrative duties regardless of the extent of that engagement (for example, clinical superintendent and medical superintendent).

The average is to be calculated from pay period figures. The length of the pay period is assumed to be a fortnight.

If under the relevant award of agreement a full-time employee is paid for an 80 (ordinary time) hour fortnight, the full-time equivalent for a part-time employee who works 64 hours is 0.8. If a full-time employee under the same award is paid for a 100 hours for that fortnight (20 hours overtime), then the full-time equivalent is 100 divided by 80 = 1.25.

Data on full-time equivalent staffing numbers by category should be consistent with data on salaries and wages by staffing category. If the full-time equivalent for contract staff is not collected then salaries for those contract staff should be included in other recurrent expenditure data items.

Where staff provide services to more than one establishment, full-time equivalent staff members should be apportioned between all establishments to which services are provided on the basis of hours paid for in each (salary costs should be apportioned on the same basis).

If under the relevant award of agreement a full-time nurse is paid for an 80 (ordinary time) hour fortnight, the full-time equivalent for a part-time nurse who works 64 hours is 0.8. If a full-time nurse under the same award is paid for a 100 hours for that fortnight (20 hours overtime), then the full-time equivalent is 100 divided by 80 = 1.25.

Comments:

This metadata item was amended during 1996-97. Until then, both average and end of year counts of full-time equivalent staff were included, and the end of year counts used as surrogates for the average counts if the latter were unavailable. The average count is more useful for accurate analysis of staffing inputs for establishment outputs and for assessments and comparisons of labour costs.

Mental health establishments NMDS:

This data element should be derived from the following

Consultant psychiatrists and psychiatrists

Medical officers who are registered to practise psychiatry under the relevant State or Territory Medical Registration Board; or who are fellows of the Royal Australian and New Zealand College of Psychiatrists or registered with Health Insurance Commission as a specialist in Psychiatry.

Psychiatry registrars and trainees

Medical officers who are formal trainees within the Royal Australian and New Zealand College of Psychiatrists Postgraduate Training Program.

Other medical officers

Medical officers employed or engaged by the organisation who are neither registered as psychiatrists within the State or Territory nor formal trainees within the Royal Australian and New Zealand College of Psychiatrists Postgraduate Training Program.

For the Mental health establishments national minimum data set reporting of this data element is optional for non-government residential mental health services and specialised mental health services provided by private hospitals that receive state or territory government funding.
