Adoption

Identifying and Definitional Attributes

Data Dictionary: NCSDD

Knowledgebase ID: 000502   Version number: 1

Metadata type: DATA ELEMENT CONCEPT

Admin status: SUPERSEDED   Effective date: 01-JUL-98

Definition: Adoption is the process of finding parents for children. Once an adoption order is granted, the adopted child legally becomes the child of the adoptive parents, as if he or she was born to them.

Context: Children and family services

Relational and Representational Attributes

Datatype:

Administrative Attributes

Source Document: Adoptions Australia 1995-1996

Source Organisation: Australian Institute of Health and Welfare

Comments: The adoption order severs the legal relationship between the biological parents and the child. A new birth certificate is issued to the child bearing the name(s) of his/her adoptive parent(s) as the natural parent(s) and the new name of the child, where a change has occurred.
Was ID. 000002 (500 added to avoid NHDD DE with same ID.).
