Relational and Representational Attributes

Datatype: Numeric
Representational form: CODE
Representation layout: N.N
Minimum Size: 1
Maximum Size: 3
Data Domain: 1 Patient and provider in the same physical location
1.1 On the hospital campus of the provider
1.2 Not on the hospital campus of the provider
2 Patient and provider not in the same physical location, and communicating via:
2.1 Telephone
2.2 Telemedicine

Guide For Use: Patient and provider in the same physical location refers to face to face contacts. If this occurs at the hospital campus of the provider, use code

1.1. If the service event does not occur on the hospital campus of the provider (hospital-based outreach services), use code 1.2. Hospital-based outreach service events occur when the patient is treated by hospital staff in a location that is not part of the hospital campus (such as in the patient's home or place of work).

Patient and provider not in the same physical location refers to

service events delivered via a telephone call or video link (telemedicine). The provider may or may not be physically present on their hospital campus.

A service event delivered via a telephone call is included if

- it is a substitute for a face-to-face service event, and
- it is pre-arranged, and
- a record of the service event is included in the patient's medical record

A service event can be counted at each site participating via a video link.
