Guide For Use: To be used only for injury surveillance purposes for non-admitted patients when it is not possible to use ICD-10-AM codes. New South Wales, Australian Capital Territory, Victoria and the Northern Territory have implemented ICD-10-AM from 1 July 1998. Other States will implement ICD-10-AM from 1 July 1999.

Select the code which best characterises the type of place where the person was situated when injury occurred on the basis of the information available at the time it is recorded. If two or more categories are judged to be equally appropriate, select the one that comes first in the code list.
