Administrative Attributes

Source Document: Based on clinic classification from Cleary, M, Murray, J, Michael, R, Piper, K, 1998,"Outpatient costing and classification: are we any closer to a national standard for ambulatory classification systems?" The Medical Journal of Australia Vol 169 Supplement 19 Oct.

Source Organisation: The Australian New Zealand Telehealth Committee

Comments: In addition to this and the other Telehealth data elements

identifiable as having ANZTC as "Source Organisation", the following
additional data elements are also associated with Telehealth:
- Area of usual residence,
- Date of birth,
- Sex,
- Geographical location of establishment,
- Person identifier, and
- Indigenous status.

Further details regarding Telehealth data definition and collection
activity can be obtained from the Australian New Zealand Telehealth
Committee's web site at www.telehealth.org.au
