Relational and Representational Attributes

Datatype: Numeric

Representational form: DATE

Representation layout: DDMMYYYY

Minimum Size: 8

Maximum Size: 8

Data Domain: NOVAL   Valid date

Guide For Use: This data element should always be recorded as an 8-digit valid date comprising day, month and year. Year should always be recorded in its full 4-digit format. For days and months with a numeric value of less than 10, zeros should be used to ensure that the date contains the required 8 digits. For example the date July 1 2000 should be recorded as 01072000.

Collection Methods: Where possible, the actual date that the payment is made should be recorded, regardless of when it is administratively recorded.
In order to accurately measure rent arrears, this item should be linked to the amount of the rental payment paid by the tenant.
