Identifying and Definitional Attributes

Data Dictionary: NHDD

Knowledgebase ID: 000646 Version number: 2

Metadata type: DATA ELEMENT

Registration NHIMG Admin status: SUPERSEDED

Authority: Effective date: 01-MAR-05

Definition: The main physical setting in which the type of treatment that is the

principal focus of their alcohol and other drug treatment episode is actually delivered to a client, irrespective of whether or not this is

the same as the usual location of the service provider.

Context: Alcohol and other drug treatment services. Required to identify the

settings in which treatment is occurring, allowing for trends in

treatment patterns to be monitored.

Data Domain: 1 Non-residential treatment facility

2 Residential treatment facility

3 Home

4 Outreach setting

8 Other

Guide For Use: Only one code to be selected at the end of the alcohol and other

drug treatment episode. Agencies should report the setting in which most of the main type of treatment (as reported in Main treatment type for alcohol and other drugs) was received by the

client during the treatment episode.

Code 1 refers to any non-residential centre that provides alcohol

and other drug treatment services, including hospital outpatient services and community health centres.

Code 2 refers to community-based settings in which clients reside either temporarily or long-term in a facility that is not their home or usual place of residence to receive alcohol and other drug treatment. This does not include ambulatory situations, but does include therapeutic community settings.

Code 3 refers to the client's own home or usual place of residence.

Code 4 refers to an outreach environment, excluding a client's home or usual place of residence, where treatment is provided. An outreach environment may be any public or private location that is not covered by codes 1-3. Mobile/outreach alcohol and other drug treatment service providers would usually provide treatment within this setting.
