
NMDS - Public hospital establishments

Important note: This is an archived metadata standard from the AIHW Knowledgebase. For current metadata standards and related information please access METeOR, the AIHW's Metadata Online Registry at <http://meteor.aihw.gov.au>

Start date: 01-JUL-89

End date:

Scope: The scope of this dataset is establishment-level data for public acute and psychiatric hospitals, including hospitals operated for or by the Department of Veterans' Affairs, and alcohol and drug treatment centres.

From version 9 Patient level data remains in the new NMDS called Admitted patient care. This new NMDS replaces the version 8 NMDS called Institutional health care.

Similar data for private hospitals and free standing day hospital facilities is collected by the Australian Bureau of Statistics in the Private Health Establishments Collection.

Hospitals operated by the Australian Defence Force, corrections authorities and Australia's external Territories are not currently included. Hospitals specialising in dental, ophthalmic aids and other specialised acute medical or surgical care are included.

Statistical units: Public hospital establishments

Collection

methodology: Data are collected at each hospital from patient administrative and clinical record systems. Hospitals forward data to the relevant State or Territory health authority on a regular basis (for example, monthly).

National reporting

arrangements: State and Territory health authorities provide the data to the Australian Institute of Health and Welfare for national collation, on an annual basis.

Periods for which data are collected and nationally collated:
Financial years ending 30 June each year

Scope links with**other NMDSs:**

Episodes of care for admitted patients which occur partly or fully in designated psychiatric units of public acute hospitals or in public psychiatric hospitals:

- Admitted patient care NMDS, version 1
- Admitted patient mental health care NMDS, version 1
- Admitted patient palliative care NMDS, version 1

Source**organisation:**

National Health Information Management Group

Comments:

Statistical units are entities from or about which statistics are collected or in respect of which statistics are compiled, tabulated or published.
