Upper limit of normal range for creatine kinase myocardial band isoenzyme

Identifying and definitional attributes

Metadata item type:	Property
METEOR identifier:	284925
Registration status:	Health , Standard 04/06/2004
Definition:	The value of creatine kinase myocardial band (CK-MB) isoenzyme that is the upper boundary of the normal reference range.
Property group:	Organisational characteristics

Source and reference attributes

Submitting organisation:	Acute coronary syndrome data working group
---------------------------------	--------------------------------------------

Relational attributes

Data Element Concepts implementing this property:	Laboratory standard—upper limit of normal range for creatine kinase myocardial band isoenzyme Health , Standard 04/06/2004
----------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------
